CONSERVATION STATUS: Endangered

[www.sharkguardian.org](http://www.sharkguardian.org)

Mako sharks  
are not just  
the fastest  
swimmers

They  
can also  
**jump 9m**  
above  
the water!

The  
highest  
of all  
sharks!

They have  
one more  
super power  
...

Makos are  
one of the few  
**warm-blooded**  
sharks!

They can  
keep their bodies  
much warmer  
than the water  
around them!
